ABOUT ME

MERN Stack Backend Developer

BS Software Engineering graduate from Hazara University with a strong interest in MERN Stack Backend Development, Artificial Intelligence (AI), Data Science, and Data Analysis. Skilled in developing scalable backend applications using **Node.js, Express.js, MongoDB, and JavaScript**. Experienced in designing **RESTful APIs**, database management, authentication systems, and server-side logic. Proficient in **Mongoose, JWT Authentication, API testing, Python, data preprocessing, data visualization, and machine learning concepts**. Passionate about building secure, efficient, and data-driven web applications while applying software engineering and analytical skills to solve real-world problems. Seeking an opportunity to contribute to innovative software development and AI-driven projects while gaining industry experience..

PROJECTS

FYP Deepfake Detection System Using MobileNetV2 & Audio Forensics

Deepfake Detection System Using MobileNetV2 & Audio Forensics is an AI-based system that detects fake videos and audio. It uses **MobileNetV2** for video analysis, **LSTM** for temporal pattern detection, and **MFCC features** for audio analysis to classify content as **Real** or **Fake**.

Link <https://github.com/kazmi3837-netizen/Deepfake-detection-system>

Hospital Management System (MERN Stack)

Built a full-stack Hospital Management System using **MongoDB, Express.js, React.js, and Node.js** with complete **CRUD** operations and an admin dashboard.

CERTIFICATIONS

Suzhou Vocational University China

Trainig on Micro-scale Sensors By Suzhou Vocational University China

Gained knowledge of sensor design, micro-scale sensing applications, and sensor data collection and analysis techniques.

Asian Development Bank Institute, 02/2026

Artificial Intelligence (AI) for Social Impact

Gained knowledge of AI concepts and their applications in solving social challenges, supporting decision-making, improving public services, and promoting sustainable development through data-driven solutions.

EDUCATION AND TRAINING

15/09/2022 – 06/07/2026

Bs(Bachelor of Science) in Software Engineering Hazara University

Field of study Software Engineering

HONOURS AND AWARDS

27/09/2023 Hazara University

Prime Minister 's Laptop Award

SKILLS

Flutter & Firebase | • Python | Machine Learning & Deep Learning | • Problem Solving & Teamwork | SQL & Database Concepts | Excel | Data Cleaning & Preprocessing | Pandas | NumPy | TensorFlow | CSS | PowerBI | .Net | Node.js | MongoDB | Express.js | REST APIs | | Mongoose

LANGUAGE SKILLS

MOTHER TONGUE(S): Urdu

OTHER LANGUAGE(S): English
